OBJECTIVE

Passionate ASP.NET Core Developer with hands-on experience building scalable, secure backend systems using C#, .NET Core, and SQL. Adept at applying SOLID principles, Clean Architecture, and modern design patterns in Agile environments. Eager to contribute to high-impact backend systems and continue growing through Clean Architecture and Microservices.

PROFESSIONAL EXPERIENCE

- .NET Core Backend Developer | Remote, Volunteer, Ask A Muslim** 01/2025 – 04/2025
Ohio, USA
- Developed scalable RESTful APIs for the Edfy educational platform, supporting secure authentication, role-based access control, and user management.
 - Built core database logic for quizzes, courses, and student progress, enabling content control for instructors.
 - Maintained backend infrastructure using C#, .NET Core, SQL Server, and Linux; followed SOLID and Agile methodologies.
 - Collaborated cross-functionally with stakeholders to gather requirements and meet tight deadlines.

PROJECTS

Edfy RESTful API [🔗](#)

Built a scalable RESTful API (Udemy-like platform) using ASP.NET Core. Implemented secure user and role management (Identity & RBAC), DTOs, Service Pattern, DI, Unit of Work, and clean architecture.

[GitHub](#) [🔗](#) | [Live Swagger](#) [🔗](#)

Calm-Sphere - Chatbot Integration API (.NET Core) [🔗](#)

Created a secure API to connect a BERT-based chatbot with a frontend via OONIX. Handled real-time communication, coordinated with ML team on API contracts. [GitHub](#) [🔗](#)

BookStore API [🔗](#)

Designed a high-performance RESTful API to manage books, authors, and categories. Supported CRUD operations, SQL Server, DI, DTOs, and scalable clean architecture. [GitHub](#) [🔗](#)

Debian-Based Automation Project [🔗](#)

Built a Bash script for automating Debian Linux setup. Installed packages, configured drivers, supported i3wm/Sway/Rofi environments. [GitHub](#) [🔗](#)

YouTube Channel [🔗](#)

Created educational content on Linux usage and backend best practices. Simplified complex topics, engaged with audience via Q&A. [YouTube](#) [🔗](#)

SKILLS

Technical Skills

Languages: C, C++, C#, Java (Proficient); JavaScript, HTML5, CSS (Familiar)

Frameworks & Tech: .NET Core, ASP.NET Core, MVC, RESTful APIs, Identity, RBAC, Clean Architecture, Microservices (learning), DI, SOLID, Design Patterns, Unit of Work, Generic Repository

Databases: SQL Server, PostgreSQL, MySQL

Tools: Git, GitHub, Linux, Bash, Agile, CI/CD (basic), GitHub Actions (learning)

Core Competencies: Backend Development, System Design, Debugging, DSA, Software Architecture

Soft Skills

- Agile Mindset: Experienced in sprint-based development and iterative delivery
- Problem Solving: Skilled in analyzing and debugging backend systems
- Collaboration: Effective in team-based environments and open-source contributions
- Communication: Clear technical communicator across technical and non-technical teams
- Adaptability: Fast learner with a growth mindset

EDUCATION

Bachelor of Computer Science (GPA 3.79/4),
MISR UNIVERSITY FOR SCIENCE AND TECHNOLOGY

2022 – 2026
6 OCTOBER, EGYPT

LANGUAGES

English

English (B1-intermediate)

Arabic

Native/Bilingual Proficiency
